CARDIAC ARREST

is a leading cause of death in the U.S., but when ordinary people know and perform CPR, survival rates can double or even triple.

The newly upgraded CPR IN SCHOOLS TRAINING KIT™ from the American Heart Association makes it easy.

Hands-on, classroom tested

The CPR in Schools Training Kit is specially designed for fun, interactive, all-in-one CPR training in a school setting.

DVD instruction

The instructional DVD allows students to practice while watching. Teachers receive an easy-to-follow Facilitator Guide.

Free online resources and teaching aids

Visit heart.org/CPRinSchools for additional resources.

Expert help starting a CPR program in your school

The American Heart Association can answer your questions and share best practices from years of community and classroom CPR education experience.

DOES MY STATE REQUIRE CPR BEFORE HIGH SCHOOL GRADUATION?

Beginning with the 2016-2017 school year, new laws in many states will require schools to train students in cardiopulmonary resuscitation (CPR) before high school graduation. Check www.heart.org/CPRinSchools for updates as new states pass legislation.

CPR in Schools Training Kit™

- Includes all tools needed to train 10 to 20 students at a time
- Is reusable—one kit can train hundreds
- Is easily implemented—any educator can lead the training in one class period or less
- Teaches Hands-Only CPR, CPR with breaths, AED skills, and choking relief
- Includes a Facilitator Guide to help train faculty, staff, parents, volunteers, and community members, too
- Comes complete with a Facilitator Binder that contains the lesson plan, pre- and post-tests, and additional supplementary material

CPR IN SCHOOLS TRAINING KIT INCLUDES

- 1 wheeled classroom carry bag
- 10 Mini Anne® Plus inflatable manikins
- 10 kneel mats
- 10 individual carry bags
- 1 hand pump for manikin inflation
- 5 practice-while-watching training DVDs (Note: DVD has not been updated to reflect 2015 Guidelines; however, guidance for providing necessary science updates to students is provided in the CPR in Schools Lesson Plan)
- 1 Facilitator Guide (updated images and text)
- 1 Facilitator Binder that contains the Lesson Plan, pre- and post-tests, and additional supplementary material
- 10 AED training simulators
- 2 mesh collection and storage bags
- 10 replacement airways
- 10 replacement face masks
- 50 manikin wipes

in Schools**

www.heart.org/CPRinSchools

The best thing for me has been seeing the change in the students. Many of the students had doubts coming in but you could see their faces light up when they realized they could actually save a life.
