Management of Shock Emergencies Video	<ul style="list-style-type: none"> • Compensated and hypertensive shock management 	
Management of Arrhythmia Video	<ul style="list-style-type: none"> • PALS core rhythms • Defibrillation 	

**Maintaining
Instructor Status**

Your instructor status must be renewed by a Training Center Faculty. You can renew your status by meeting all of the following criteria or by successfully completing all requirements for a new instructor:

- Maintain current provider status. You can do this by maintaining a current provider card or by demonstrating exceptional provider skills to a Training Center Faculty and by successfully completing the provider exam.
- If you choose the demonstration route, successful completion must be documented on the Instructor/Training Center Faculty Renewal Checklist. A new provider card may be issued at the discretion of the Training Center or if you request one, but it is not required by the AHA.
- Earn 4 credits during each 2 years of your instructor recognition by doing any combination of the following:
 - Teach an instructor-led PALS or PEARS Course (1 credit per course). Two of the 4 credits must be for a PALS Course.
 - Conduct the hands-on session HeartCode PALS. Each day of HeartCode PALS hands-on sessions counts as 1 credit.
- Attend updates as required within the previous 2 years. Updates may address new course content or methodology and review Training Center, regional, and national ECC information.
- Be monitored while teaching before your instructor status expires. The first monitoring after the Instructor Essentials Course does not satisfy this requirement.
