

## Precourse Self-Assessment Page Examples

### Precourse Self-Assessment Page Example #1: Welcome Page

Pediatric Advanced Life Support | Precourse Self-Assessment

### Welcome to the American Heart Association's PALS Precourse Self-Assessment

The precourse self-assessment is a prerequisite for the PALS Course to ensure that all students have the adequate baseline knowledge to enter the course. Use the report you receive at the end of the precourse self-assessment to identify any gaps in knowledge. We encourage you to use all necessary resources to fill those gaps before the classroom portion of the course.

Once you complete the precourse self-assessment, you will receive a report detailing your results. You will need this report showing a passing score to enter the course.

- Print the report and give it to your instructor when you arrive for class.

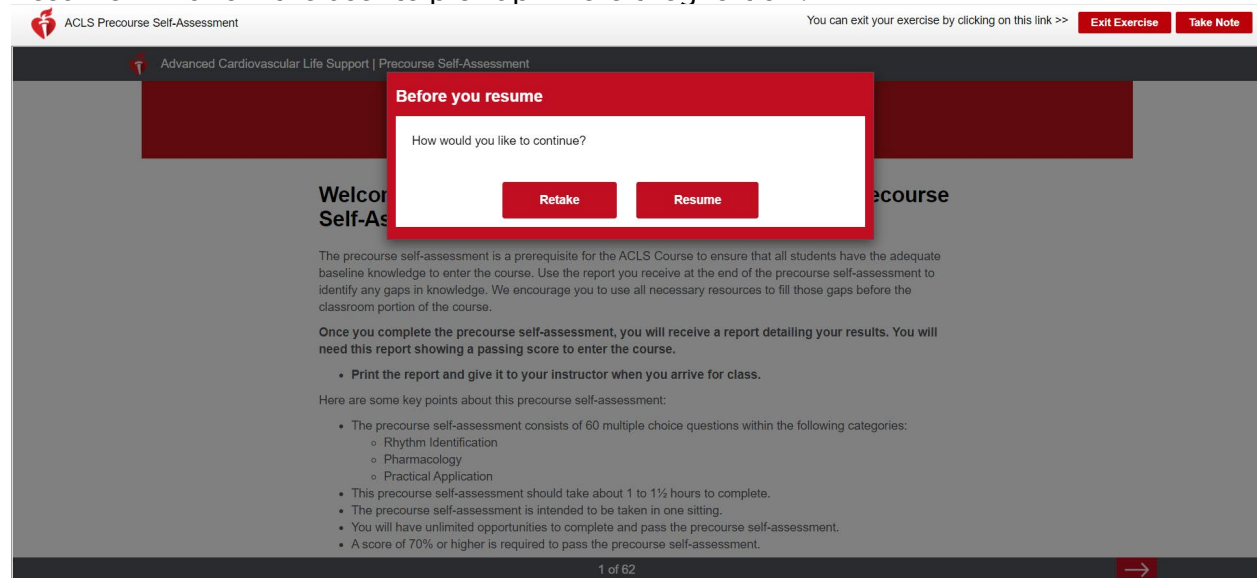

Here are some key points about this precourse self-assessment:

- The precourse self-assessment consists of 52 multiple choice questions within the following categories:
  - Rhythm Identification
  - Pharmacology
  - Practical Application
- This precourse self-assessment should take about 1 to 1½ hours to complete.
- The precourse self-assessment is intended to be taken in one sitting.
- You will have unlimited opportunities to complete and pass the precourse self-assessment.
- A score of 70% or higher is required to pass the precourse self-assessment.

### Precourse Self-Assessment Page Example #3: Progress Retention – Student has completed the Precourse Self-Assessment

**\*\*Note:** this screen appears if the user completed the Precourse Self-Assessment and goes back into it at a later time. Retake will allow the user to start over from scratch. Resume will allow the user to pick up where they left off (i.e. the scoring report page). Review will allow the user to see what questions they got right and wrong.

The screenshot shows the PALS Precourse Self-Assessment page. At the top, there is a navigation bar with the text "PALS Precourse Self-Assessment" and a link "You can exit your exercise by clicking on this link >>". To the right of the link are two buttons: "Exit Exercise" and "Take Note". Below the navigation bar, there is a header area with "Pediatric Advanced Life Support | Precourse Self-Assessment". The main content area is titled "Welcome to the Precourse Self-Assessment" and contains the following text:

The precourse self-assessment is a prerequisite for the PALS Course to ensure that all students have the adequate baseline knowledge to enter the course. Use the report you receive at the end of the precourse self-assessment to identify any gaps in knowledge. We encourage you to use all necessary resources to fill those gaps before the classroom portion of the course.

Once you complete the precourse self-assessment, you will receive a report detailing your results. You will need this report showing a passing score to enter the course.

- Print the report and give it to your instructor when you arrive for class.

Here are some key points about this precourse self-assessment:

- The precourse self-assessment consists of 52 multiple choice questions within the following categories:
  - Rhythm Identification
  - Pharmacology
  - Practical Application
- This precourse self-assessment should take about 1 to 1½ hours to complete.
- The precourse self-assessment is intended to be taken in one sitting.
