INTRODUCTION

The American Heart Association (AHA), Opioid Response Network (ORN), and American Academy of Pediatrics (AAP) have partnered to develop resources to help healthcare providers in the community navigate the opioid epidemic. The Workgroup concluded that provider education is key and focused on the Developmental Team’s literature review, recommendations, and an expert panel meeting to develop resources for healthcare providers.

The Opioid Partnership’s initiative is supported by the Substance Abuse and Mental Health Services Administration (SAMHSA), under the American Rescue Plan Act Appropriations. Funding for this initiative was made possible (in part) by grant no. 1H79TI083343 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does mention of trade names, commercial practices, or organizations imply endorsement by the US Government.
