

American
Heart
Association.

Is your school or school district prepared to ***SAVE A LIFE?***

The American Heart Association can help your school create a state-compliant Cardiac Emergency Response Plan.

Your CERP Services Includes:

- 1:1 guidance to develop your CERP and form a dedicated response team
- Support for AED placement, installation, and ongoing maintenance, plus connection with local EMS for coordination (if available).
- Guidance on planning and running campus CERP drills with review and feedback on your school's plan
- Heartsaver® First Aid CPR AED training for 5 staff members plus access to the Professional Education Hub
- A CPR in Schools® Kit and AED Trainer for hands-only CPR training
- Additional tools and support to strengthen your school's lifesaving readiness, and more!

"I believe every school, in every district, should make it a priority to have a cardiac emergency response plan in place. You never know when a cardiac emergency might happen, and the right processes can be the difference between losing a life and saving one. If schools are prepared, they can give every student, teacher, and visitor the best possible chance in those critical moments."

Joseph Harrington, Ed.D. | Superintendent
Hurst-Euless-Bedford Independent School District
