

IS YOUR SCHOOL PREPARED TO SAVE A LIFE?

American Heart Association®
CERP Services

The American Heart Association can assist in creating a **Cardiac Emergency Response Plan** that meets state guidelines and **ensures your school is prepared** for a Cardiac Emergency.

We provide hands-on technical assistance:

- Science-backed, best practices tools
- 1 CPR in Schools Kit (Essential) / 2 CPR in Schools Kits (Premium)
- CPR/AED training & certification for up to 5 (Essential) or 8 (Premium) staff members
- Direct connection with school site or district contact
- Access to regularly scheduled live webinars covering processes, best practices, and special topics (recordings also available for on-demand viewing)
- School-level assessment checklist provided to on-site CERT Lead
- AHA drafts model CERP protocol tailored per campus and reviews with campus lead
- AHA facilitates connections with local EMS
- AHA supports preparation for CERP Drill at each campus
- Annual review prepared by AHA, collaboratively updates campus CERP as needed with campus lead

The AHA offers 2 levels of CERP Services, Premium, and Essential, reach out to schoolcerp@heart.org to learn more.

*Each CPR in Schools Kit includes 1 wheeled carry bag, 10 mini Anne plus inflatable manikins, 10 individual carry bags, 1 hand pump for manikin inflation, 5 practice while watching training DVDs, facilitator guide and binder, and 10 AED training simulators.
